II. INTRODUCTION

Happy Pairs will introduce you to see the landscapes of 18 countries in the world. As soon as you finish each level of pairs match, the beautiful landscape of the country will come to your eyes. Match the same figures with same colors in a certain time, so do it as fast as possible but also be careful of the trick when you select the objects to match. Wrong selection of the objects will interfere you to complete the map. Don't worry, you will make the good choice.

Level 1. North Pole
2. Japan
3. China
4. Thailand
5. Australia
6. India
7. Mid. East
8. South Africa
9. Spain

Level 10. France
11. England
12. Germany
13. Russia
14. Canada
15. U.S.A
16. Mexico
17. Brazil
18. South Pole

III. GAME CONTROL

Control Pad Arrows:	Move your finger in the indicated direction.
Start Button:	Start and freeze the game.
Button A:	Set/cancel the card that you match
Button B:	Match cards by computer (only for certain times)

IV. GAME MECHANICS

There is a total of 18 levels which comprise 18 contries' landscape. You will see the landscape of the country after you pass a level. You can also select the difficulty level a. Easy b. Normal c. difficult in each level.

You have to cover all the cards in the screen in a certain time. Two cards as a match each time you cover, and when you cover all the cards in your screen then you pass the level. The figure on the right side is the time you have left during the game. When it appears 00:00 means Time is Out. And you can press Start button to start this level again.

"No Solution" means you cannot finish this game when you see it during the game. You have made the wrong selection of the pairs during the connection of the cards. Press the Start button and play it again.

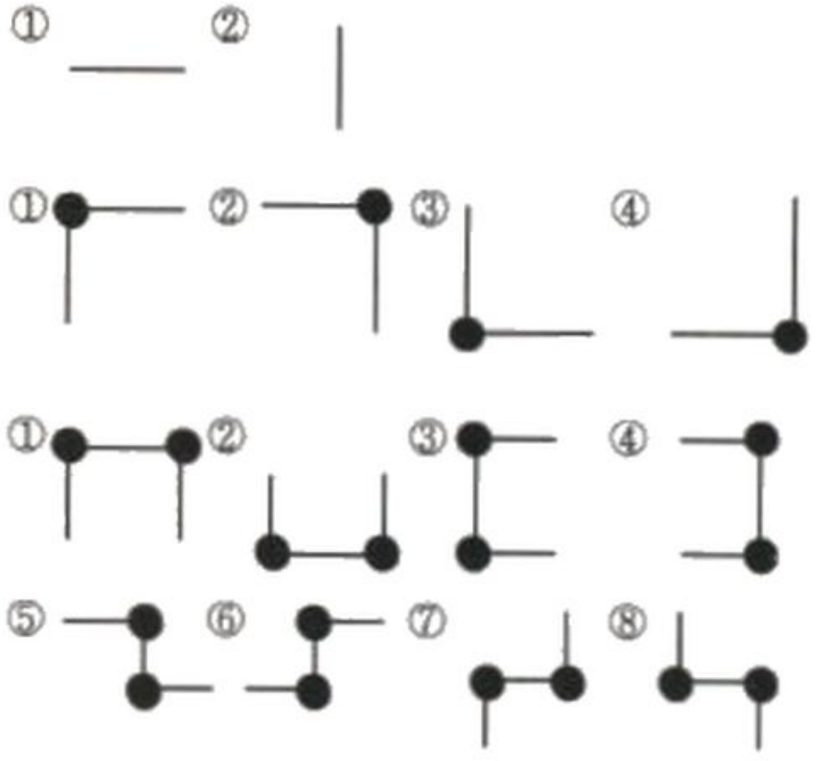
"Game Over": Game is over. Press the start button immediately before time out, and you can play again with this level, or you will play from the Ist level.

V. HOW TO PLAY THE GAME

The pair of cards have to be matched as follows conditions:

a. Two cards with same figure and same color.
b. The route you connect to the next card as a pair has no objects to interfere your connection. Except the card is next to the first one.
c. The route with right angle for connecting two cards cannot be more than with 2 right angles.

1. The basic route for connection of a pair:



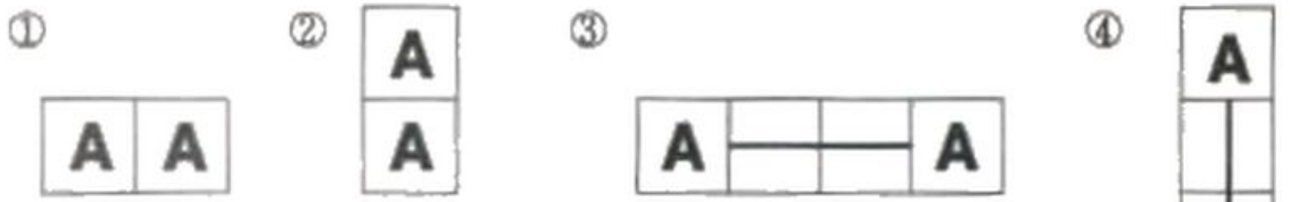
a. Straight line

b. Connect with 1 right-angle turn

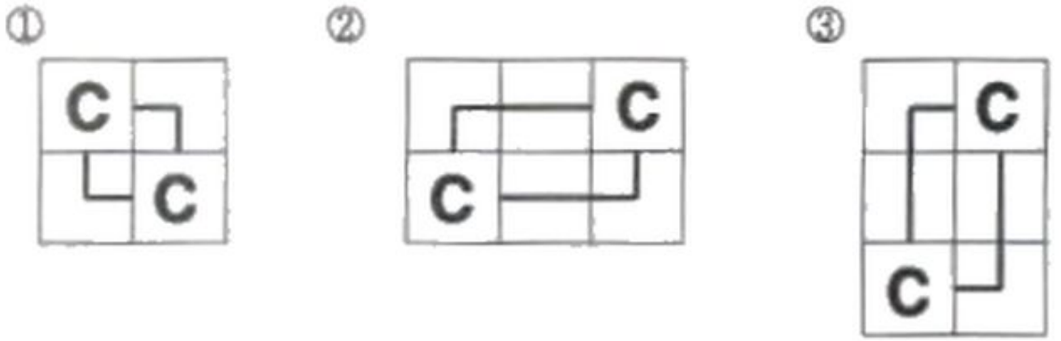
c. Connect with 2 right-angle turns

2. Examples

a. Straight line:

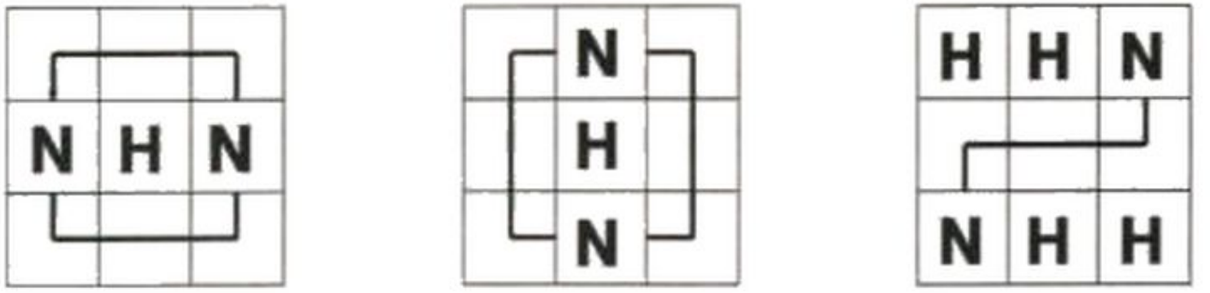


b. Connect with 1 right-angle turn:

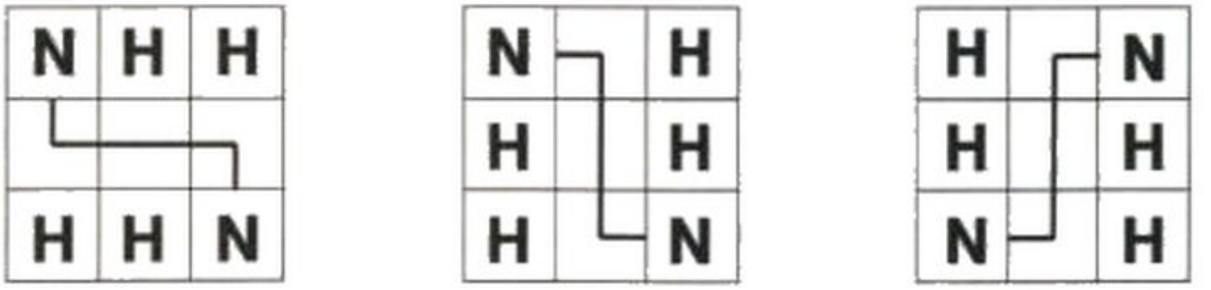


c. Connect with 2 right-angle turns:

① ② ③

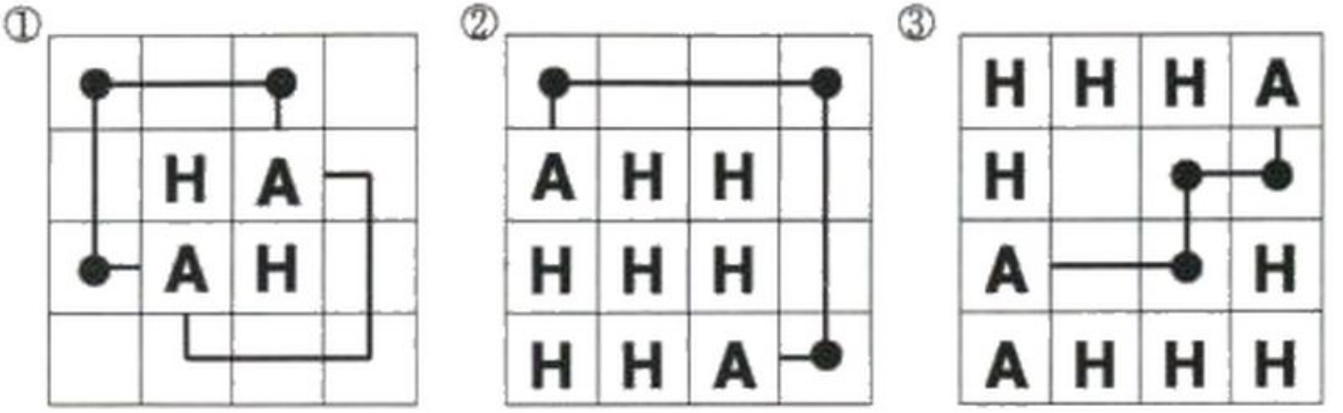


④ ⑤ ⑥



3. Unable to connect as a match (more than 2 turns):

① ② ③



COMPLIANCE WITH FCC REGULATIONS

This equipment generates and uses radio frequency energy and if not installed and used properly, that is, in accordance with the manufacturer's instructions, may cause interference to radio and television reception. It has been type tested and found to comply with the limits for a Class B computing device in accordance with the specifications in Subpart J of Part 15 of FCC Rules, which are designed to provide reasonable protection against such interference in a residential installation. If this equipment does cause interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient the receiving antenna.
- Relocate the NES® with respect to the receiver.
- Move the NES® away from the receiver.
- Plug the NES® into a different outlet so that NES® and receiver are on different circuits.

If necessary, the user should consult the dealer or an experienced radio/television technician for additional suggestions.

The user may find the following booklet prepared by the Federal Communications Commission helpful: HOW TO IDENTIFY AND RESOLVE RADIO-TV INTERFERENCE PROBLEMS. This booklet is available from the U.S. Government Printing Office, Washington, D.C. 20402. Stock N. 004-000-00345-4.

Note: NES® is the abbreviation for Nintendo Entertainment System®
